

the **ENERGYDATA**GROUP

Utilizing technical capabilities for our product
and turnkey solution

Data Integration: Producing More & It Costing Less

- What we do
- Our product
- Capital investment

What we do

Product: dashboards for C-Suite and senior management; to make this work, an integrated data hub is necessary; we will host this and make it a part of the offering

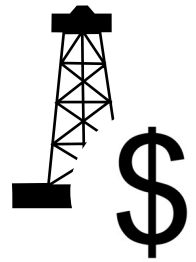

Services: implement and integrate clients' data sources for better data to funnel to these tools

Consulting: sessions with boards and C-Suite to align data with business strategy to establish us as the acknowledged experts in upstream O&G data

Exec Problem: Look-ins to the business

Production/Forecasting – Revenue for strategic planning and direction

Budgeting – Costs to production scenarios, from LOE's to CapEx

Ops Problem: Data Infrastructure for delivery

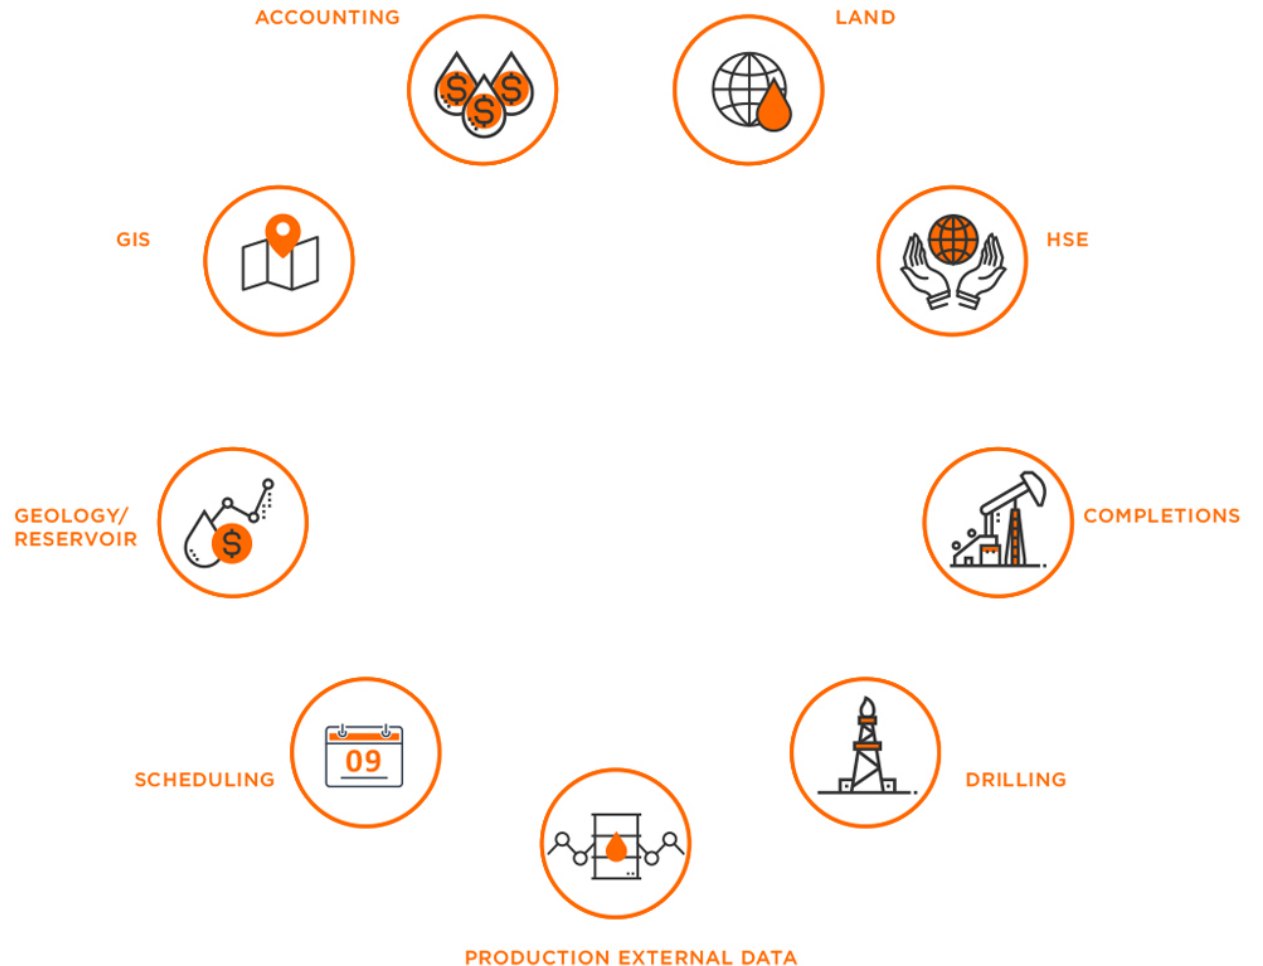

Well Master Data:
Single source of truth

Access well
structured data

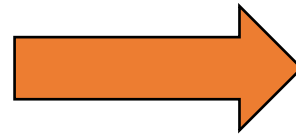

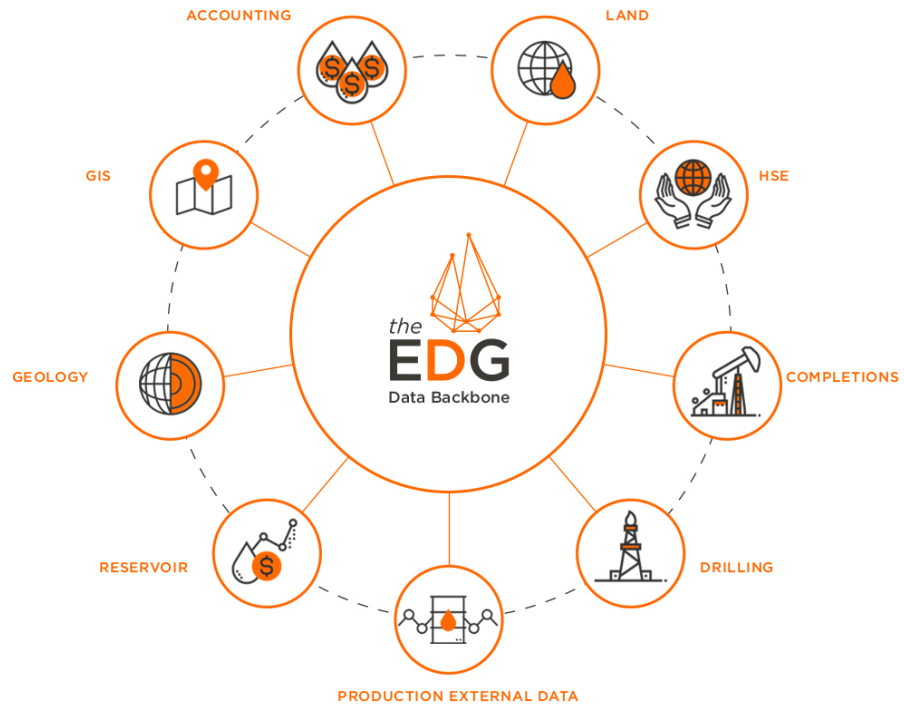

Managing the
data cohesively

The C-Hub

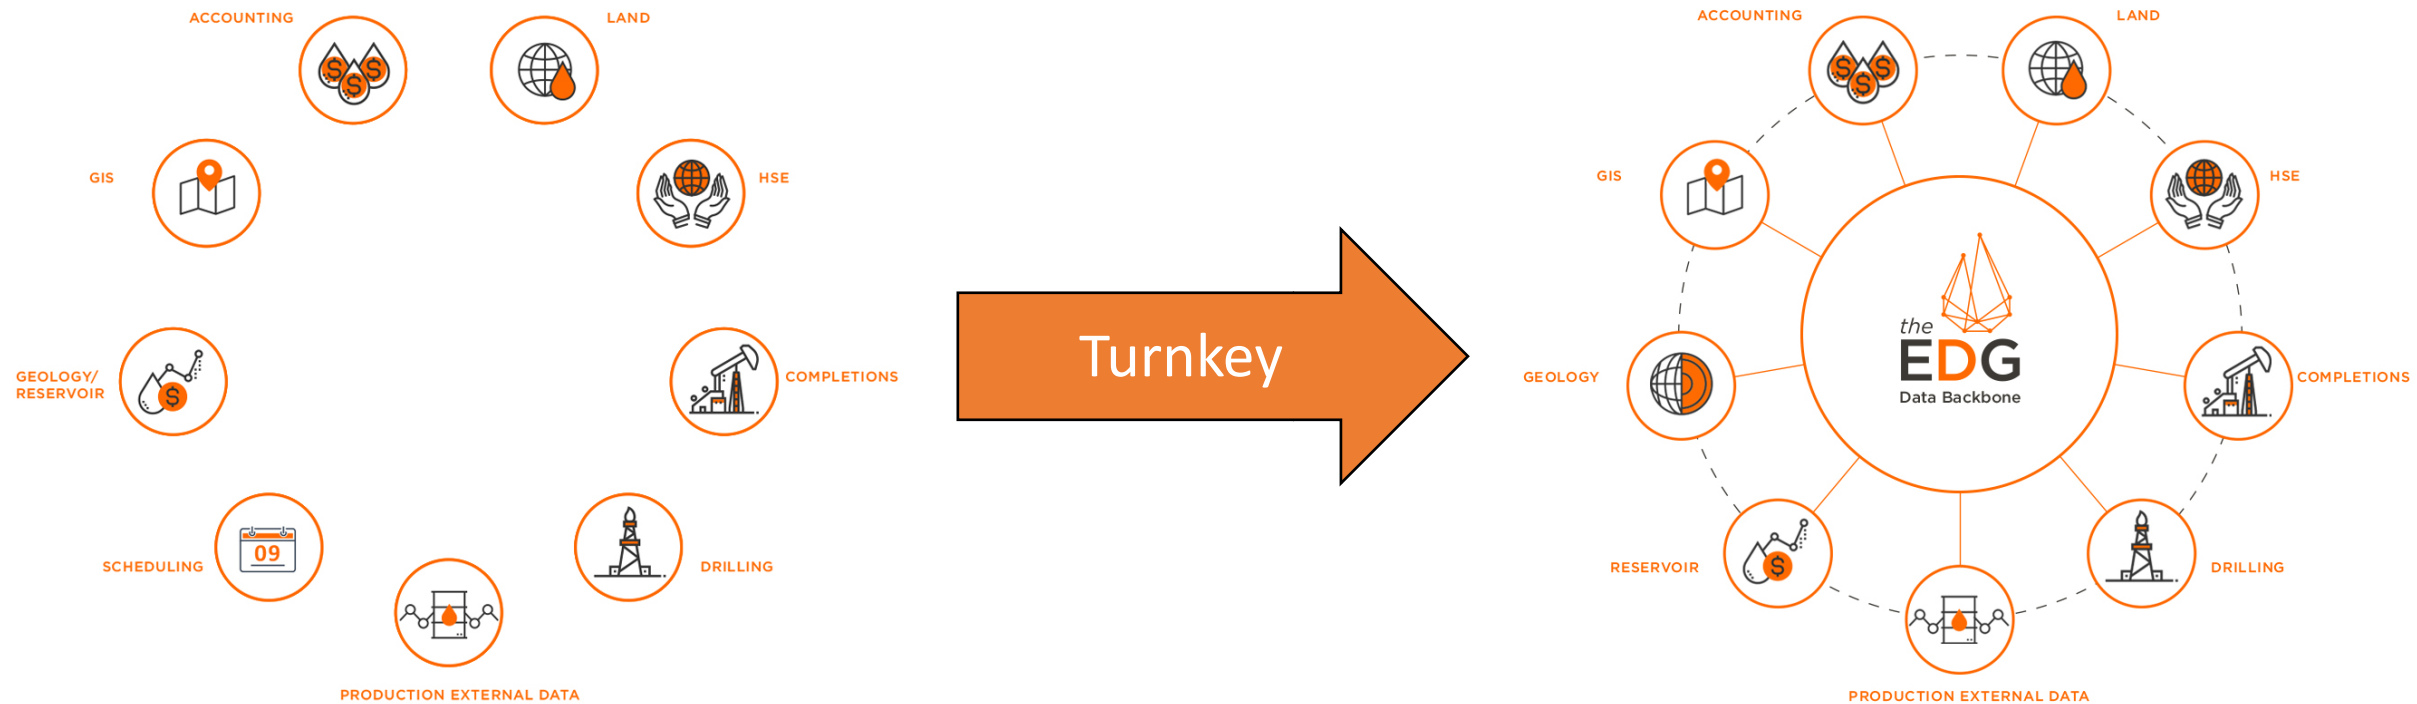

Operational

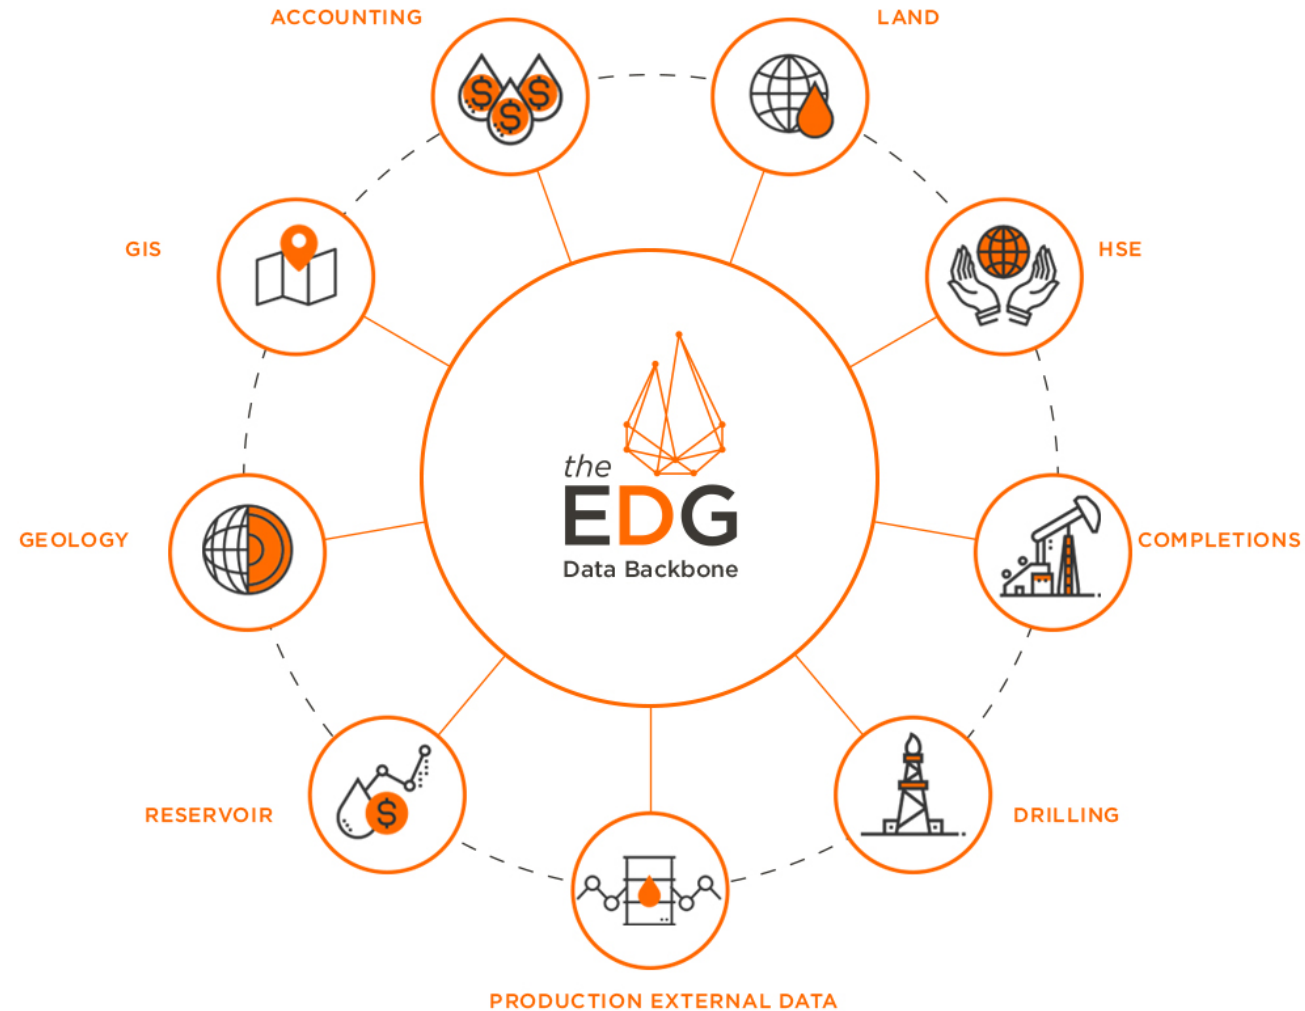

C-Hub

Our Challenge: Increase Turnkey Solutions

The Next Level
