

URTeC 2019

U-Pitch

July 23rd, 2019

Sebastien Matringe

Hess Technology Focus Areas – targeting breakthrough improvements in EHS/Production/Cost....

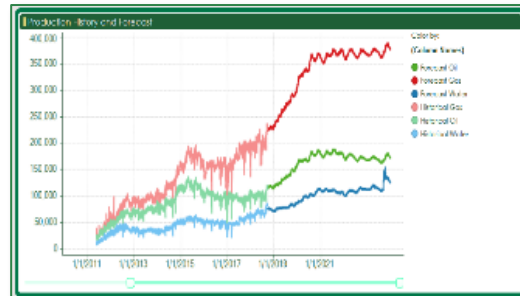

Autonomous Fields of the Future

- Artificial Lift
- Site Surveillance
- Facility Automation including Drilling

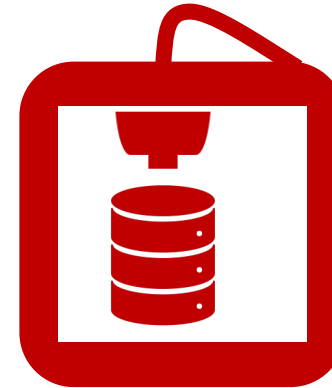

10x Well/Reservoir Productivity

- Next Generation Stimulation Design
- Re-stimulation
- Increase Recovery / EOR
- Seismic Technology
“Go Faster, Go Smarter”

Preferred Parts Partnership

- Additive Manufacturing

Data is the New Oil

- Real-Time Well Advisory
- ML / AI to Increase Recovery
- Maturing and Expanding Use of Data Analytics
- Automate Data Discovery and Access

Focus areas defined, ramping up pilots, scale on success...
