Hess Technology Focus Areas – targeting breakthrough improvements in EHS/Production/Cost….

Autonomous Fields of the Future
- Artificial Lift
- Site Surveillance
- Facility Automation including Drilling

10x Well/Reservoir Productivity
- Next Generation Stimulation Design
- Re-stimulation
- Increase Recovery / EOR
- Seismic Technology “Go Faster, Go Smarter”

Preferred Parts Partnership
- Additive Manufacturing

Data is the New Oil
- Real-Time Well Advisory
- ML / AI to Increase Recovery
- Maturing and Expanding Use of Data Analytics
- Automate Data Discovery and Access

Focus areas defined, ramping up pilots, scale on success…
